

Pre-Medical Fast-Track Program for Marian University Undergraduates

The Marian University College of Osteopathic Medicine (MU-COM) has announced programs that will give Marian University pre-medical students additional opportunities for admission into MU-COM.

Two tracks are available for students who are currently in the pre-medical program at Marian University. The first track is for students who are currently in the pre-medical program at Marian University and are planning to apply to MU-COM in the fall of their senior year. The second track is for students who are currently in the pre-medical program at Marian University and are planning to apply to MU-COM in the spring of their senior year.

Amanda Wright, DO

Dean, Marian University College of Osteopathic Medicine

Five spots under each track will be reserved for Marian University undergraduates each year. Students will have two options toward acceptance:
